Number of Openings:	1
Location:	Open; Travel to Baltimore, MD Required
Start Date:	Immediately
Duration:	Permanent
Salary/Rate:	Competitive Based on Experience
Years of Experience:	Minimum (7) Years of Experience as a Software Engineer Required

Position Description:

Oracle Mobile Cloud Service (MCS) is Oracle's Mobile Backend as a Service (MBaaS) offering. You will take an active role in the definition and evolution of standard practices and procedures. You will be responsible for defining and developing software for tasks associated with the developing, designing and debugging of software applications or operating systems.

Required Skills:

- Minimum (7) years of experience as a Software Engineer required
- Design, develop, troubleshoot and debug software programs for databases, applications, tools, networks etc.
- Experience with large scale cloud platforms
- Experience with Java, Node.js, REST
- Experience with Security frameworks, and flows
- Passion for user friendly software and a commitment to a design driven approach to software development
- Track record of innovation and execution
- Excellent verbal, written communication, and presentation skills

Education:

- Bachelor's Degree required
- Master's Degree preferred

Primary Job Responsibilities:

- As a MCS Lead Developer, you will work on various consulting projects to help clients implement business strategies by delivering innovative technology, people and process solutions by design and implementation of mobile applications.
- You will play multiple roles on projects, including use case definition, user interface design, creating technical specifications, prototypes, programming / application development, testing, and deployment.
- Work with third party libraries and APIs.
- Knowledge of the different mobile dimensions and orientations (responsive design).
- Demonstrate solid understanding of the full mobile development life cycle (Agile, Iterative, SDLC).
- Strong understanding of working with authentication and authorization security concepts.
- Expertise in change management and version control practices
- Communicate effectively both verbally and in writing, and work closely with a team.
- Demonstrate good problem solving skills, take initiative, be a fast learner and exhibit a great attitude.

- You will be a leading contributor individually and as a team member, providing direction and mentoring to others.
- Work is non-routine and very complex, involving the application of advanced technical/business skills in area of specialization.
