Sofbang Announces Expansion of New Noida Office

Expansion Enables End-to-End Managed Services & Innovative Service Offerings

PRESS RELEASE - Noida, India, July 10, 2019

Sofbang is proud to announce its offshore development office's relocation from their existing Delhi headquarters to a new facility in Noida. The move, effective July 10, 2019, will significantly expand the Sofbang Offshore Development Center, enabling the company to scale up operations and better address expanding client needs.

With this move, Sofbang is expanding to a space that better reflects its goals, values, and commitment to excellence. The new facility, located in the thriving tech hub of Noida, will provide the infrastructure Sofbang needs to meet its growth objectives and achieve true 24-hour around-the-clock operations between the India and Chicago offices, increasing Sofbang's ability to support worldwide clients and partners.

Sofbang's new office is extremely employee-friendly, with a modern Silicon Valley-style layout, including large windows, modern furniture, open-concept design, a relaxing meditation room, and flex rooms for conferencing, recreation, and hosting visitors. The reliable building security, high speed Wi-Fi, break rooms, and amenities illustrate Sofbang's commitment to creating a comfortable, supportive environment for employees and attracting top talent in the Noida area.

Nearby bus and metro stations will simplify commuting for Sofbang's existing employees and create additional opportunities for Sofbang to connect with premium talent in Noida. Moving forward, Sofbang is confident the new office will provide a competitive advantage when it comes to attracting and retaining India's IT leaders.

Sofbang's philosophical values are simple: transform customers, help by serving and giving back, serve for a higher purpose, build trust, and demonstrate humility at the core. This new office allows Sofbang to help inculcate and practice these values by building a strong connection with one another through the company's open and collaborative execution model. In turn, Sofbang is able to serve, transform, and delight their customers.

Sofbang is a leading system integrator, providing impactful and innovative solutions in the Lifecycle Services Automation, Integration, App Dev (Mobile, Web & AI), DevOps & IaaS, and Blockchain domains. We are proud to offer each customer an innovative, uplifting experience by creating solutions, extending existing functionality and building automation. Our packaged accelerators and exceptional systems integration, architecture, implementation and consulting expertise focused on Oracle, Salesforce, Google Cloud, and open source technologies enable us to accelerate business value and stretch the limits of what's possible.

In recent years, Sofbang has been recognized throughout the IT industry as a true innovator of value-driven solutions. The company has won multiple Oracle Excellence Awards for Cloud Platform Innovation, Specialized PaaS, and Cloud Platform for SaaS and has been recognized as one of CRN's Next-Gen 250 two years in a row. Our mission is to accelerate business value using our agile approach and Designed for Change philosophy.
